245 East 93rd St. #23J
New York, NY 10128

Casper, New York City NY *(October 2015 - Present, Front End Developer)*
- Work on the front end portion of a Ruby on Rails e-commerce website, implementing user facing features , using ES6, SASS, and Haml.
- Converted the front end code to use React, Redux, and CSS modules.
- Write unit tests using Jest.
- Implement A/B tests and analytics tracking events through Google Analytics, Google Tag Manager, Heap, Convertro, and Optimizely.
- Organize monthly get togethers for women in the company, "Ladies Lunch."

SapientNitro, New York City NY *(August 2014 - October 2015, Interactive Developer)*
- Build functional websites from wireframes, Photoshop files, and Functional Specification Documents.
- Created an interactive prototype for a large e-commerce site's redesign. The final prototype demonstrated the responsive behavior, visual design, and accessibility requirements as a model for the production website.

Momenta Pharmaceuticals, Boston MA *(May 2013 - August 2014, Research Intern)*
- Research, evaluate, and recommend data visualization software. Primarily worked with gene expression data (sets of 40,000 items).
- Discussed final conclusions and results in research department presentation.
